INVESTMENT APPROACH

> INSIDE BIG ISSUE INVEST

Welcome

20 years of social impact investing

2024/25 has been a year of both exceptional progress and deepening social challenges. With poverty now affecting 21% of the UK population¹ and social needs rising across every region, we are glad to have significantly scaled our support for the sector by committing a further £9.4 million to 50 social purpose organisations, marking a drastic increase in our year-on-year deployment.

This growth reflects our unwavering belief in the power of social investment to create lasting change, and our commitment to evolving the products and partnerships that make this possible. We are particularly pleased to have strengthened our regional collaborations with local authorities in the North East, Greater London and the West Midlands, ensuring our capital reaches communities that need it most.

From innovative, diverse-led enterprises such as Ruka Hair, supported through the Growth Impact Fund, to critical social infrastructure like Great Oaks College — a pioneering provider of therapeutic education — backed via our Social Impact Debt Fund IV, our investments address urgent and emerging needs across employment, housing, mental health and more.

This year marks two major milestones for Big Issue Invest: our 20th anniversary, and surpassing £100 million in total capital deployed since inception.

It is both a moment to celebrate progress and to recognise the scale of challenges ahead. The sector remains underfunded, and attracting new forms of capital through innovative, impact-led strategies is vital to meeting demand. The call to action has never been more urgent.

At this milestone moment, we are delighted to announce Holger Westphely as our new Managing Director.

Holger has led our lending and accelerator programmes since 2022 and brings two decades of experience in finance and social investment, including senior roles at CAF Venturesome and co-founding Eastside People. His expertise and passion will drive our next phase of growth.

Our achievements this year are thanks to the outstanding commitment of many. We are deeply grateful to outgoing CEO, Danyal Sattar, for his leadership; to our Board and Committees for their guidance; to the exceptional Bll team; and above all, to our investees, who deliver sustainable impact in communities across the UK. As we look ahead under new leadership, we do so with renewed energy to build a more inclusive, resilient society through social investment.

Mark Porter Chair Big Issue Invest

I'm excited to be taking charge of Big Issue Invest as we enter a milestone year for the business. We've spent 20 years of investing in businesses that dismantle poverty, and I'm proud to be leading us into the next chapter with real determination to build further on that incredible legacy. Social investment offers a muchneeded alternative approach to financing and delivering social impact for our communities. We're committed to doing all we can to back the UK's many brilliant mission-driven businesses addressing disparities in health, education, housing and more."

What we do

Social impact investing to end poverty and social inequality

How we deliver impact

■ Big Issue Invest (BII) invests in social purpose organisations delivering long-term solutions to the root causes of poverty in the UK, with investment ranging from £20,000 to £4 million.

This contributes to our overall mission as part of Big Issue Group:

Dismantling poverty through social business solutions.

Big Issue Group creates solutions and opportunities for people to work, earn, learn, and thrive."

At BII, it's about More than Money too. We provide non-financial support to help our investees build resilience and get the most from investment, and to support the growth of the social sector.

Our impact pillars

Our investees deliver impact across **five key pillars**, which we believe are critical to dismantling poverty.

Learning & Employment

Housing

Health & Wellbeing

Financial & Digital Inclusion

Community & Environment

We help our investees grow:

HEALTH & WELLBEING

COMMUNITY & ENVIRONMENT

FINANCIAL & DIGITAL INCLUSION

BRINGING INVESTMENT TOGETHER

INVESTMENT APPROACH In March 2025, Bll invested an initial £2.6 million in Great Oaks College (GOC), of a total £3.2 million commitment.
GOC offers life opportunities to 100+ young people (19 to 25) with moderate, severe, or profound and multiple learning difficulties so they can build skills, confidence, and resilience.

Why we invested

James Potter, Investment Director

Rebecca Moss, Investment Manager

We're delighted to have made our first Social Impact Debt Fund IV Ioan commitment to Great Oaks College to allow it to transition to a new site and provide

to allow it to transition to a new site and provide its students and staff with long term security. The outcomes achieved by the students at Great Oaks College and the difference the college makes to their lives is why Bll funds projects like this.

This loan will remove the uncertainty and challenges of a short-term leased site and allow Great Oaks to own, manage and invest in its site, providing the students with the opportunity to make the most out of their time at the college, opening doors for their future. This funding for a critical piece of community infrastructure creates exactly the type of long-term impact we're trying to make with Fund IV and across BII."

How we work - it's More than Money

Bll's support for GOC went beyond just providing finance. As a hands-on impact-first investor, Bll catalysed:

- → **Strategic support** through a sponsored referral to the Reach Fund⁶, leading to GOC obtaining a £15,000 grant to develop a robust business plan and financial model, key to securing investment and strengthening financial resilience.
- → Expertise and connection by introducing GOC to a project manager to oversee the site development, and a part-time Finance Director to strengthen their financial planning and reporting.

BRINGING INVESTMENT TOGETHER

INVESTMENT APPROACH Impact on Great Oaks College

Nickyie Thomas

Principal of Great Oaks College

Just two months after receiving an 'Outstanding' Ofsted report, we were informed by the Local Authority that we had been issued a two-year notice to vacate our site. Our immediate challenge was securing a suitable building that can safely accommodate our students and meet their complex physical and educational needs. As a charity, securing financial support has been particularly challenging. We were unable to obtain a mortgage on a new property, and without a physical asset to secure a loan against, it proved difficult to gain the support we needed from potential investors.

Despite our best efforts, we felt as though we were running out of options - until we were introduced to Bll.

11 | Big Issue Invest Annual Impact Report 2024/25

Bll has proven to be much more than a financial partner; they have invested in our vision and values. James and Rebecca have demonstrated a genuine commitment to our mission. The support will ensure that we can continue to provide exceptional education for our students, empowering them to lead full, meaningful lives."

Impact on people

In July 2024, **30**% of students on GOC's vocational pathway graduated with employment secured whereas nationally, only **5.1**% of people with learning disabilities are employed.⁷

Parent feedback: **97**% believe their young person is happy at GOC and **90**% feel their young person is making good progress

LEARNING & EMPLOYMENT

HOUSING

HEALTH & WELLBEING

COMMUNITY & ENVIRONMENT

FINANCIAL & DIGITAL INCLUSION

BRINGING INVESTMENT TOGETHER

INVESTMENT APPROACH In January 2025, Bll's Impact
Loans England facility invested
£60,000 in Newquay Lighthouse
Project CIC (NLP) to help them open
a new 7-bed supported housing
service in Penzance, for women
overcoming drug and alcohol
addiction. Alongside a Bideford
residence, this now makes three
'Lighthouse Projects'.

Supported housing saves an estimated

£3.5bn

in public funds each year by relieving pressure on public services.8

1 in 3

supported housing providers in England closed schemes in 2023-24 due to financial pressures⁹ Why we invested

Linda Wickstrom
Investment Manager

We're delighted to support NLP as they grow their impact with a new women's supported housing service in Penzance. With a strong track record of running two other successful recovery projects for men, this expansion enables them to meet a pressing local need as demand for addiction services continues to rise. The Lighthouse Projects provide not just safe, high-quality housing, but a supportive community that helps prevent relapse, eases pressure on health and social services, and ultimately enables people to rebuild their lives and return to independence."

INVESTMENT APPROACH

> INSIDE BIG ISSUE INVEST

Impact on the Lighthouse Projects

We are incredibly grateful to BII

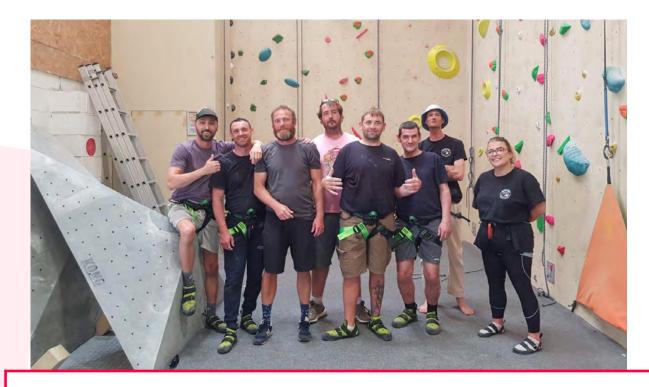

Adam Langer,

Director and Founder of the Lighthouse Projects

for the funding that enabled us to open the Penzance Lighthouse Project, our first women's supported housing service. With the housing crisis, cost of living pressures, and rising homelessness, our work is more urgent than ever. For people leaving treatment or beginning recovery, safe and stable accommodation is often the missing link. Without it, the risk of relapse, rough sleeping, and hospitalisation rises dramatically. This funding allows us to expand our vital work and provide a safe, recovery-focused environment for women.

The BII team have been supportive, approachable, and genuinely interested in our project.

They took the time to understand our challenges and our vision, and their guidance throughout the process was clear and constructive. Bll feels more like a partner than a funder, committed to helping us succeed."

Impact on people

S's Recovery Journey

S came to Lighthouse Projects as a resident at NLP's Bideford house. After years of street homelessness and repeated imprisonment, he was in the early stages of recovery. Having recently relapsed after treatment, he urgently needed safe housing and a supportive community to help him build a life free from addiction.

At Lighthouse, S embraced abstinence-based recovery and became an active part of the

house community. His commitment and progress led him from being a resident to part of the Lighthouse Projects team: first as a volunteer, then a support worker, and today he is thriving as Manager of one of NLP's residences.

S is now in his final year of a psychotherapy degree and was recently invited to join the board of Bideford Lighthouse Project CIC. With five years of abstinence, he is not only free from addiction but giving back as a valuable source of support to others.

COMMUNITY & ENVIRONMENT

> **FINANCIAL** & DIGITAL INCLUSION

BRINGING INVESTMENT **TOGETHER**

INVESTMENT **APPROACH**

In July 2024 Bll made a £48,000 debt investment with a £12,000 grant in Keep Active NE CIC (KANE), following on from a repaid £35,000 loan made in 2019. The latest investment enabled KANE to hire a new staff member to expand the breadth of their health and wellbeing support for their service users.

Poor health is nearly twice as common among people on the lowest

of incomes than among those in the highest

Regional inequalities mean healthy life expectancy in the North East is the lowest in England: about **57 years**, compared to 64 years in the South East.11

Why we invested

Michael Burns Head of Lending

KANE have been working in their local community for years, and are always looking to improve how they meet the needs of the people they see. Bll's latest investment means the team can bring on a new specialist staff member to deliver mental health and wellbeing support alongside their other services. Bll has been sole investor in KANE since 2019, and we've seen them weather COVID-19, and more recently, the summer 2024 riots. Talking to the team, it's always clear how tuned in they are to how these big events are impacting the neighbourhoods and individuals they work with. This investment is a great example of that: they've spotted the local need, and we're happy to be able to help them deliver a solution."

BRINGING INVESTMENT TOGETHER

INVESTMENT APPROACH

Impact on Keep Active

Colin Dagg, Director, Keep Active NE CIC

The support we have had from BII has been first class.

Bll have always strived to know so much about the business and our personnel, which is how they have been able to signpost us to the correct streams to help grow the organisation. The most recent funding from Bll will help us in so many ways. It's also brilliant that Michael, our investment manager, is a local guy and understands the culture and challenges the North East faces at present. The invaluable support on financial modelling and business planning from Michael was just as important as the funding itself, and allowed the team to gain a clear understanding of how to grow sustainably in line with our values."

Impact on people

KANE ran one of their healthy eating and cookery programs for the Northern Engagement into Recovery from Addiction Foundation (NERAF), aimed at local people overcoming drug and alcohol addiction:

We have seen a remarkable positive change in many of our service users as a result of the

Keep Active sessions. Many of them have relied on fast food and ready meals and have not had the knowledge of how to lead healthier lifestyles. This programme has supported them to change their habits, which in turn impacts both their physical and mental health." Amanda Lowery, CEO, NERAF

Ushaw Historic House

WHAT WE DO

2025 IMPACT

LEARNING & EMPLOYMENT

HOUSING

HEALTH & WELLBEING

COMMUNITY & ENVIRONMENT

FINANCIAL & DIGITAL INCLUSION

BRINGING INVESTMENT TOGETHER

INVESTMENT APPROACH In February 2025, Bll invested £100,000 in St Cuthbert's College Ushaw, a charity managing the Ushaw Historic House and estate in County Durham. The loan has funded development of a new all-weather surface car park, boosting their ability to meet visitor demand and generate income.

Deprived areas with no community spaces and low community engagement face higher unemployment, poorer health, and greater child poverty than equally deprived areas that have these 'community assets'.¹²

People living in more deprived areas, and minority ethnic groups, are more likely to have limited access to green space.¹³ Why we invested

Richard Wills
Investment Manager

Ushaw Historic House is a fantastic community asset of national historic importance. County Durham is one of the top 40% most deprived local authorities in England. This investment supports not only the preservation of heritage but also improves its accessibility and broader social impact on the local community, including as a source of local jobs, volunteering opportunities and pride. At a time when the cost-of-living crisis is hitting families hardest, Ushaw is committed to making culture accessible to all, offering discounted memberships to locals and free access for families with children eligible for free school meals. It's a place that brings people together, with a wide variety of events and activities that really make a difference."

TOGETHER

INVESTMENT APPROACH

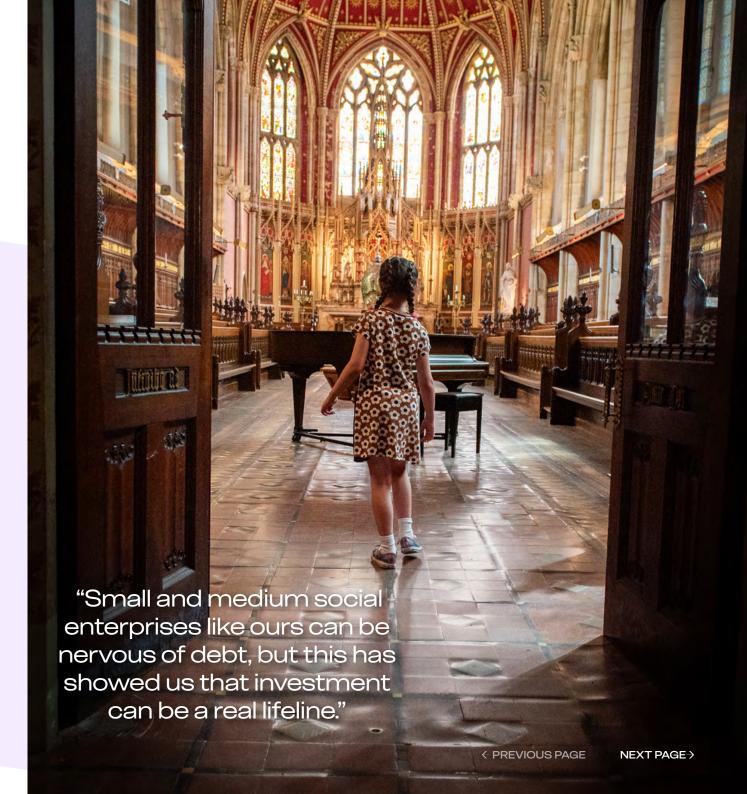

Impact on Ushaw Historic House

Lucy Jenkins, Co-CEO, Ushaw Historic House

This investment has unlocked our ability to be a sustainable long-term charitable business. The new car park is more than just infrastructure; it means visitors can enjoy a smoother, more accessible journey to Ushaw's historic house, gardens, and exhibitions. It has had a huge impact on everyone, staff and visitors alike. In the past, we often had to cancel activities like yoga or art classes when the weather was bad, turning people away at the door. Now we can welcome more people, more often.

Working with Bll has been a breath of fresh air. Our investment manager, Richard, was incredibly supportive and understanding. Unlike a bank, which can feel very 'computer says no,' Bll asked, 'how do we help?' Now we have increased confidence to plan for the next 2-5 years without relying solely on grants."

FINANCIAL & DIGITAL INCLUSION

BRINGING INVESTMENT TOGETHER

INVESTMENT APPROACH In August 2023, the Growth Impact
Fund (GIF) — a joint venture between BII
and UnLtd — invested a £250,000 Revenue
Participation Agreement in Lightning Reach,
a digital platform that connects people facing
financial difficulties to support.

44%

of UK adults are living in financially vulnerable circumstances

3.9m

UK families are relying on maximum available credit to afford necessities - a growth of

12%

in the last year¹⁴

Why we invested

Kieran Carty Investment Manager

Lightning Reach embeds right at the point of need to deliver financial support fast. Instead of filling in lots of different forms, applicants need only basic details to quickly see what help they're eligible for.

For utility companies, charities and local authorities, it streamlines the whole process of delivering support, meaning money reaches people faster and with less hassle."

How we work

Innovative Due Diligence

Instead of multiple investors conducting separate due diligence assessments for the deal, GIF and co-investors worked as a single team, streamlining the process. This kind of approach makes it easier for founders to access funding and proves that a more collaborative and efficient way of working is possible in the social investment sector.

Impact on Lightning Reach

Ren Hooi Founder & CEO. Lightning Reach

The investment from the **Growth Impact Fund has been** transformative for Lightning Reach. It's allowed us to scale our platform and reach thousands more people across the UK. Our platform users are in financial need: 81% earn less than £1,000 a month. We also have a higher-than-average proportion of users from ethnic minorities [21% vs the UK average of 13%] who are shown to be most impacted by the cost-of-living crisis."

Beyond the investment, Big Issue Group have supported us with helpful press coverage, awards and events — which we really appreciate!

Impact on people

Nidhi from Slough was awarded £1,500 by the Teaching Staff Trust after accessing the Lightning Reach portal. The award helped cover her bills, everyday essentials for her family, and start reducing her outstanding debt:

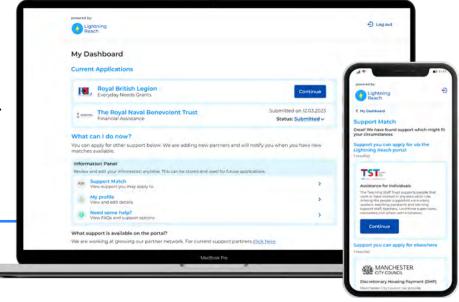

Gas, electricity and water have increased. Life is difficult when you are a single mum. Applying

didn't take me more than 10 minutes, it was

so quick and I have never seen anything more efficient and accessible in England yet. To be honest, I was not hoping for the best, but it was a miracle. I received the email, they called me, they said this is happening. It has made a huge impact. There is always a chance to bounce back and there are people out there who can help you: you are not alone."

Wider impact

Lambeth Council have reduced the time it takes to find support for residents from 45 minutes to 5 minutes by partnering with Lightning Reach. As a result, the Council has found personalised support for 4,400 residents, with over £200k awards granted and a further £298k of benefits identified.

FINANCIAL & DIGITAL INCLUSION

BRINGING INVESTMENT TOGETHER

INVESTMENT APPROACH Every investment journey is unique, because our approach is shaped by the needs of the specific organisation. Both impact and financial considerations are balanced at each stage.

Screening Getting to know you

Often organisations seek funding because of a specific challenge, so the first question is: is BII the right partner for that challenge? This includes whether the organisation is in a good place to take on investment, and whether we are aligned in our social missions.

"We start with a chat about the organisation's aspirations, their impact and finances. By understanding these, we can direct them to the most suitable support." Michael Burns, Head of Lending

Thorough and constructive ganisations seek funding This is where we have a specific about 100 and 10

 \rightarrow

This is where we really get to know the organisation's impact, business model and governance. Many investees comment that this is a rigorous process, but one that provides valuable perspective and guidance.

Due Diligence

"The process is extremely thorough and has supported the charity to decide whether it has the financial ability to take on a large loan and comfortably afford the repayments in various downside situations."

Piera Jalan, Business Manager, Great Oaks College

"Throughout, there was a clear focus on impact. Our conversations went deeper into impact metrics and Theory of Change than with other investors."

Matt Pierri,
Founder,
Sociability

Pre-investment support

Bridging the gap

Helping social purpose organisations become investment-ready is an important part of our work, and we have a few avenues for support:

 \rightarrow

- We make referrals to the Reach Fund, which provides investment readiness grants of up to £15,000.
- → For potential investees of our Growth Impact Fund, the built-in Technical Assistance facility provides up to £15,000 worth of support to become investment-ready.
- → For organisations who are virtually investment-ready, our Investment Managers provide ad-hoc support as part of the Due Diligence process

"The invaluable support on financial modelling and business planning was just as important as the funding itself." Colin Dagg, Director, Keep Active NE CIC

Post-investment

Support when it's needed

We believe wholeheartedly in mission-driven businesses, and regularly promote the work of our portfolio organisations through the channels available to us.

"Big Issue Group have supported us with helpful press coverage, awards and events which we really appreciate!" Ren Hooi, Founder & CEO, Lightning Reach

Running a social business comes with its fair share of surprises. When things get tough, BII offer expertise and flexibility to help.

"Whilst I don't think BII labels itself as a patient lender, it has certainly been understanding of difficult periods. [...] Its commitment to social business is more than lip service." Eddie Bridgeman, Director,
Meanwhile Space CIC

Working with Bll has been a breath of fresh air.
Unlike a bank, which can feel very 'computer says no,' Bll asked, 'how do we help?'"

Quality of service

27 | Big Issue Invest Annual Impact Report 2024/25

We are an active social investor that is committed to supporting the sustainable growth of social purpose organisations, serving as a reliable partner throughout their journey. By listening, learning, and using quality-of-service metrics, we assess the impact and effectiveness of both our financial and non-financial support.

How we're doing according to our investees

We are proud to have achieved a **Net Promoter Score of 76** (up 8 points from last year), considered excellent by industry standards. This means the vast majority of our partners and stakeholders would highly recommend our services and support to others.¹⁶

Growth & Resilience Survey Responses

We also use quality of service metrics to assess how our financial support and portfolio management lead to meaningful outcomes for the social enterprises we back, including resilience and growth. This is done using the Better Society Capital enterprise-level impact framework.¹⁶

This year, our portfolio organisations have reported slightly lower resilience scores compared to the previous year. As Bll's quality of service scores have increased, this decrease in resilience likely reflects the increasingly difficult wider economic environment faced by social purpose organisations, and changes to the level of demand for their impact services. As a next step, Bll is working on our methodologies and frameworks for tracking the non-financial support we provide, so that we can improve our offering to these organisations and better support them through these challenges.

For this report snapshot data was taken on 31/03/25

In 2024, the mean gender pay gap as a percentage of men's pay is 20%. In other words, women on average receive 20% lower earnings than their male colleagues. This is an increased difference compared to the data from March 2024 (as reported in last year's annual report). The median gender pay gap is 11% in favour of men, compared to the 1% gap in favour of women reported last year. It is important to note that as the team is relatively small at 20 staff members, changes in salaries for individuals, and changes to the staff team, can have a significant effect on

the overall ratios.

Big Issue Invest's

2024/25 median

gender pay

gap is

in favour

of men

Last Year:

- → Big Issue Invest's 2023/24 mean gender pay gap was 8% in favour of men
- → Big Issue Invest's 2023/24 median pay gap data was 1% in favour of women

Proportion of males & females in each salary quartile 2023/24

	Male	Female
Upper Hourly Pay Quarter	80%	20%
Upper Middle Hourly Pay Quarter	40%	60%
Lower Middle Hourly Pay Quarter	80%	20%
Lower Hourly Pay Quarter	40%	60%

The proportion of women in the organisation has slightly increased, from 38% in 2024 to 40% in 2025. Meanwhile there has been a decrease in the proportion of women in the upper hourly pay quartile: last year 40% of those in the top quartile were women. The number of women in the upper middle and lowest pay quartiles has gone up to 60%, from 33% and 40% respectively.

This is a reduction from last year, when the ratio was 4.04:1.

HEALTH & WELLBEING

COMMUNITY & ENVIRONMENT

FINANCIAL & DIGITAL INCLUSION

BRINGING INVESTMENT TOGETHER

INVESTMENT APPROACH

Environmental impact

Last year, Big Issue Invest shared data on its carbon footprint for the first time. Since then, we have taken initial steps to start reducing our negative impact on the environment. This has predominantly focused on improving the quality of our data, and transitioning to renewable energy sources wherever possible.

Scope	24/25 CO2e (tonnes)	23/24 CO2e (tonnes)	Change
Scope 1	-	-	-
Scope 2	1	15	-94%
Scope 3 - Home Working	7	7	-5%
Scope 3 - Commuting	6	6	-5%
Scope 3 - Operational	199	214	-7%
Scope 3 - Financed Emissions	3,062	2,390	28%
TOTAL	3,275	2,632	24%

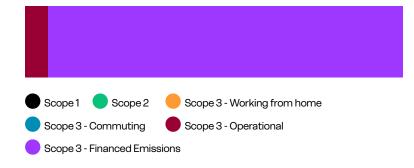

In 2024/25, the total attributed emissions associated with our investment activities, our financed emissions²⁵, grew by **28%** compared to 2023/24. However, this represents a lower rate of growth than the associated outstanding capital, which increased by **32%**.

This year, Bll's financed emissions per £1 million of outstanding capital was 76 tonnes, compared to 79 tonnes last year. This decrease was largely driven by improved quality of data associated with the carbon emissions of our portfolio organisations.

Carbon emissions of BII in 2024/25, excluding financed emissions (tonnes)

Carbon emissions of BII in 2024/25, including financed emissions (tonnes)
